Quality Assurance Service Commitment Letter

Project: VICTORIA TOWER ADELADE

Address: 32-36 Grote Street, Adelaide SA 5000

We make a commitment that the raw materials selected for the gaskets by our company, which were used in above project were of high quality EPDM without recycle rubber. The product quality standards comply with the requirements of GB/T 24498-2009.

Under normal usage conditions, we guarantee that the EPDM gaskets remain free from serious sealing problems such as aging, cracking, and breaking for a period of 15 years. If the gaskets fail to function properly due to human factors or during the production and installation process, our company will not be held responsible.
